SUMMARY

Motivated **Computer Science Engineer** with hands-on experience in building web-based applications using **Java, Spring Boot, Hibernate/JPA, and SQL**. Strong foundation in backend development, REST APIs, and CRUD operations. Passionate about developing scalable applications and improving system performance through clean, efficient, and maintainable code.

TECHNICAL SKILLS

- **Programming:** Java (Core, OOPs), SQL, JavaScript
 - **Backend Technologies:** Spring Boot, Spring JDBC, Hibernate (ORM), JDBC, RESTful API Development, CRUD Operations
 - **Web & Frontend:** HTML5, CSS3, React, REST APIs
 - **Databases:** MySQL, Oracle Database
 - **Tools:** Git, GitHub, VS Code, Eclipse, Talend API Tester, Postman
-

INTERNSHIP EXPERIENCE

Full Stack Developer Intern | Insta IQ, Nagpur *June 2025 – October 2025*

- Developed and optimized front-end modules using **HTML, CSS, JavaScript, and React** to enhance user engagement.
 - Integrated **RESTful APIs** to ensure seamless communication between UI and backend services.
 - Improved application performance and user experience through structured UI enhancements.
 - Performed extensive debugging and cross-platform testing to maintain application stability.
-

PROJECTS

AI Job Application Mail Generator *(Java, Spring Boot, Hibernate/JPA, HTML, JS, REST APIs)*

- Developed a **Spring Boot** application that generates professional job application emails using AI based on company name, job designation, and description.
- Implemented **Hibernate and JPA** for ORM-based data persistence to manage users and store generated email history efficiently.
- Designed **REST APIs** and integrated a SQL database to handle user identification and data retrieval.

Online Banking System (*Java, Spring Boot, Hibernate/JPA, HTML, CSS, JavaScript*)

- Developed a Spring Boot banking application implementing **deposit, withdrawal, balance inquiry, and transaction history** using REST APIs.
- Utilized Hibernate and JPA for ORM-based data persistence to manage customer accounts and transaction records.
- Designed and integrated a **SQL database** with proper validations to ensure accurate and consistent banking operations.

Blog Platform with Admin Control (*Java, Spring Boot, Hibernate/JPA, SQL, HTML, JavaScript*)

- Developed a full-stack blog application featuring an **Admin dashboard** for managing blogs and users.
- Implemented **role-based authentication** and authorization for Admin and Users with secure access control.
- Used Hibernate and JPA to perform CRUD operations for blog posts, users, and administrative actions with SQL-based persistence.

Interview Questions API (*Java, Spring Boot, Spring Data JPA, SQL*)

- Developed **RESTful APIs** using Spring Boot to manage and serve a repository of interview questions.
- Implemented a **layered architecture** (Controller, Service, Repository) using Spring Data JPA for clean and maintainable code.
- Integrated a SQL database for storing and retrieving interview questions through API endpoints.

Digital Diary Application (*Java, Spring Boot, Hibernate/JPA, MySQL, REST APIs*)

- Developed a Spring Boot-based **Digital Diary application** to manage user-specific diary entries using REST APIs.
- Implemented Hibernate and JPA for ORM-based data persistence to store users and diary records efficiently.
- Followed a **layered architecture** (Controller, Service, DAO) for clean and maintainable backend design.

EDUCATION

B.E. in Computer Science Engineering (*Babasaheb Naik College of Engineering, Pusad*)
(2021– 2025)

CGPA: 8.6

CERTIFICATIONS

- **Software Engineering Virtual Program** – Goldman Sachs
- **Full Stack Java Development** – Symbiosis University
- **Java Programming** – NPTEL
- **Java & SQL Training** – ExcelR
- **Core Java** – Naresh IT
- **UI Development** – Udemy
